Aqua Table Zaha Hadid

Architecture's First Lady

Zaha Hadid's unique language of smooth contours and fluidity form this remarkable design

The voluptuous Aqua Table is an uninterrupted whole, a curious and curvaceous form that invites viewers to engage with it. Standing as an impressive centrepiece it delivers a stylish focal point. The three fin-like legs of the Aqua Table appear to be in motion and register as gradients on the gently undulating tabletop. Eight coats of high-gloss automotive paint are applied and polished by hand to make a striking surface capable of reflecting light in flowing pools and waves.

This design is challenging, daring and the work of one of the greatest talents the contemporary design industry has known.

Zaha Hadid
Architect
1950-2016

Zaha Hadid was the first woman to be awarded the distinguished Pritzker Architecture Prize in 2004 and is internationally known for her built, theoretical and academic work. Her recognisable and remarkable style is characterized by fragmented geometry and bold fluid forms. Hadid's outstanding contribution to the architectural profession continues to be acknowledged by the worlds most respected institutions. In 2010 and 2011, her designs were awarded the Stirling Prize, one of architecture's highest accolades, by the Royal Institute of British Architects.

Other awards include UNESCO naming Hadid as an 'Artist for Peace', the Republic of France honouring Hadid with the 'Commandeur de l'Ordre des Arts et des Lettres', TIME Magazine included her in their list of the '100 Most Influential People in the World' and in 2012, Zaha Hadid was made a Dame Commander of the Order of the British Empire by Queen Elizabeth II. Her legacy continues through the many projects in construction and in the extraordinary talents of their team.
