

LAWRENCE 391 stool

Design

Rodolfo Dordoni

Description

Stool for outdoor use

Structure

Powder coated steel cleaned and treated with an electrolytic process of hard iron phosphatisation. This pre-painting guarantees a higher resistance to corrosion and it removes polluting substances. Its effect is reinforced with a following nanotechnology anticorrosive treatment and with an electrostatic powder painting with polyester base that gives more protection from scratches and also the final coloring to the product.

Canvas

Cloth made with 100% cotton fiber, water resistant. This fiber has a light fastness of 4/5 in grey scale (EN ISO 16640). The profiles of the canvas are made with leather, in brown colour.

Weight

2 kg

Finishes

canvas
02 sand

Maintenance

Steel

In case of exposition to weather conditions, it is recommended to wash regularly the product with mild tepid water. In case cleaning is needed, use a neutral soap (UNIVERSAL CLEANER RODA) and warm or mild water.

Dry immediately to avoid stains and halos caused by water.

Eventual rusty formation must be treated with a rust stopper and eventually touched up with the paint stick in the same color of structure, supplied by RODA.

Canvas

Dry clean the canvas.
