

Design

Rodolfo Dordoni

Description

Bench for outdoor use

Structure

Teak. Teak wood contains a natural oily resin which makes it extremely resistant to weather, temperature, parasite attacks and insects. The exposure outdoor creates a 1/2 mm-thick oxidation patina on the wood surface which favors its discoloration to a silver-grey color; this change does not affect its original characteristics in any way. The grey patina can be avoided or removed with the correct maintenance.

Cushion

Standard or hydro-draining

Weight

Structure: 14kg

Cushion: 2,5kg

Storage cover

Available

Finishes

NTW002-01

structure
teak\01

Maintenance

Teak

- For a normal cleaning, use a soft cloth (not in microfiber), fresh water and SUNDECK SOAP.
- Use SUNDECK WOD OIL LIGHT, a nutrient and protective oil, on new products to avoid the oxidation of the surface.
- Remove the grey patina due to the oxidation of the surface, useing GREY OFF every 2/3 years. After the treatment with GREY OFF, wash the furniture with water and SUNDECK SOAP and oil it with SUNDECK WOOD OIL LIGHT.
- If deep spots hard to clean with SUNDECK SOAP may happen, sand the surface uniformly before using GREY-OFF; in any case, do not use GREY-OFF more than once a year.
