Description
Bar stool for outdoor use

Structure
Teak frame and seat. Teak wood contains a natural oily resin
which makes it extremely resistant to weather, temperature, parasite attacks and insects. The exposure outdoor creates a 1/2 mm-thick oxidation patina on the wood surface which favors its discoloration to a silver-grey color; this change does not affect its original characteristics in any way. The grey patina can be avoided or removed with the correct maintenance.

Belts
Double-twisted 100% polyester thread, in cotton finishing; they have great toughness and great resilience, high resistance to abrasion, to heat, to bending stress, high modulus of elasticity, minimal wet regain, good resistance to chemical agents and to bad weather conditions; color fastness to light of 7 in the blue scale (maximum of the scale: 8); as the time goes by, the exposition to extreme weather conditions may cause a discoloration of the threads.
Cushion
Standard or hydro-draining

Weight
Structure 10kg
Cushion: 0,3kg

Storage cover
Available

Maintenance

Teak
- For a normal cleaning, use a soft cloth (not in microfiber), fresh water and SUNDECK SOAP.
- Use SUNDECK WOD OIL LIGHT, a nutrient and protective oil, on new products to avoid the oxidation of the surface.
- Remove the grey patina due to the oxidation of the surface, useing GREY OFF every 2/3 years. After the treatment with GREY OFF, wash the furniture with water and SUNDECK SOAP and oil it with SUNDECK WOOD OIL LIGHT.
- If deep spots hard to clean with SUNDECK SOAP may happen, sand the surface uniformly before using GREY-OFF; in any case, do not use GREY-OFF more than once a year.

Belts
Brush the surface of the belts to remove the dust or clean them using water and neutral soap UNIVERSAL CLEANER.
Do not use any abrasive products,acid substances or aggressive chemical solvents.
