

### Trace Glass Coffee Table

An experiment in the magical effect of moiré patterns. A family of lights and tables made from glass. Available as a coffee table and dining table. Lighting includes tall and short pendants and a double-layered table light.

Process	The fine lined pattern on the base is screen printed in a ceramic paint then fired to create a hardwearing surface. The glass components are then UV bonded together. The base is attached to the table top with UV bonded fixings.
