

Washbasin/ countertop with fixed front
 ADRP_

Studio MK27, Mariana Ruzante, Marcio
 Kogan, 2018

Self-bearing washbasin countertop made of
 marble, framed on three sides by metal
 plates. Available in different lengths.

Materials

-  Wood
-  Marble
-  Brass
-  Stainless steel
-  Leather

Countertop/washbasin made of white Carrara, grey Carnico, black Marquina, green Alpi or Emperador dark marble with outer structure in brushed burnished brass, natural polished or brushed* brass or, on demand, satin-finish stainless steel.
The washbasin, integrated into the top, has a fixed length of 80 cm and two depths; the shallower one allows the tap to be fitted directly on the countertop.
The 20-cm high front panel under the washbasin is fixed, while the sides are drawers fitted with fully extendible slides with push-pull opening and soft-closing mechanism, (40 kg load capacity).
The front panel finishes are available in white Carrara, grey Carnico or black Marquina marble, or in natural, brown, dark, ash grey oak, or in reconstituted wood with a teak finish, in raw, green or black leather or
in burnished brushed brass, natural polished or brushed* brass or, on demand, in satin stainless steel.
The casing and inside of the drawers are in the same finish as the front panels when they are made of wood. One of the wood finishes must be chosen if the front panels are in marble, leather or metal.
All the front panels are supported by an MDF panel lacquered in dark grey.
 * Customised finishes starting from a base of natural brass are available on request.

Height:	25 cm	9" 27/32 inches
Depth:	50 cm	19" 3/4 inches

Note: DR is available in lengths ranging from 120 to 220 cm. NB: front panels cannot be produced in Verde Alpi and Emperador dark marble.

Main dimensions: for mounterd tap

Main dimensions: for countertop tap
