

Series composed by a chair, little armchair, armchair and sofas.

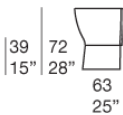

The seat **structure** is made of stainless steel, the base may be satin finished, matt varnished in avorio, grafite or grigio lava colour or gloss varnished and is completed by plastic spacers.

The **seat** is fixed – in cold injected polyurethane and covered with polyester fiber and polyamide – for the chairs and the little armchair; it is removable – in polyester fiber and polyamide with a polyurethane – for the armchair and the sofas.

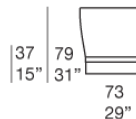

The **seat upholstery**, fixed or removable according to the product typology, is available in in all of the indoor fabrics in the collection.

The **structure upholstery** is fixed and is woven by hand with elements in Chain and Chain Outdoor tubular knit padded with polyester fiber. The structural weave is formed by elements in different colours, obtained by recovering and sewing together production cutoffs of the tubular knit that otherwise would have been discarded.
