

BASS SOFA

YEAR: 2018 DESIGNER: JADER ALMEIDA

Pure shapes, classic proportions and high-performance upholstery represent the Bass sofa. The body is developed from orthogonal lines and can be covered in leather or various fabrics. The rigidity of the base is balanced by casual cushions. In addition to all the necessary attributes for a good sofa, the modularity and ease of composition provide a dynamic model that easily adjusts to any space. Designed for large or small spaces, depending on the modules used, it can be placed in domestic or public areas, fully complying with its function.

DIMENSIONS

Variable dimensions according to the modules and project.

MATERIALS

Seats, arms and backrests upholstered in fabric or natural leather
Base coated in natural lamina or in matt lacquer.
