

Pouf for interior use available in two dimensions, with removable felt upholstery.

**Padding:** polypropylene microspheres.

**Covering:** fixed, in three-dimensional polyester fabric.

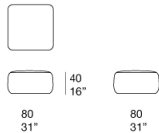

**Upholstery:** removable, made by sewing together with Zigzag stitch elements in Paola Lenti felt decorated with machine embroidery.

**Notes:**

The upholstery of the Float poufs in the Mottainai version is decorated with machine embroideries and stitching that involve the use of yarns from the processing of the outdoor fabrics of the collection and that vary from time to time according to the movements imposed on the machine itself by the operator.

By the very nature of the process, these poufs are unique pieces: they mix fabric scraps recovered from previous productions according to an aesthetic criterion, which enhances every single combination, and a conceptual one, which takes up the philosophy of “no waste” and makes them become an integral part of the Mottainai collection. It will then be possible to indicate only the main shade of the desired upholstery, or opt for a multi-coloured upholstery version.
