

MODE SOFA

YEAR: 2018 DESIGNER: JADER ALMEIDA

Inspired by the 1970s, the free and intuitive modularity approach responds very well to the needs of any era as the selection of modules generates countless results for different purposes. It is noticeable that the Mode sofa does not follow a strict hierarchy. However, it can be arranged in a way that it looks just like a traditional sofa. The backrest is loose and provides handles that facilitate displacement and change of position - regardless of the purpose.

DIMENSIONS

Variable dimensions according to the modules and project.

MATERIALS

Upholstered and covered structure.
Individual parts for the composition of the modules.
