‘The Nekton stools can constantly be adapted and changed to accommodate any seating need by expanding both the interlocked and individual pieces.’
Zaha Hadid

Curvaceous and tactile, the combined Nekton form splits into four distinctive sculptural seats. Scattered through a space or grouped in clusters, this design provides a flexible, unified seating landscape. The recognisably fluid aesthetic of world-renowned architect and designer Zaha Hadid is expressed in the connected shapes and surfaces. Most at home in the contemplative environment of museums and art galleries it is also an ideal installation piece for large entrance halls and viewing platforms.
