CHO7 | SHELL CHAIR HANS J. WEGNER

DESCRIPTION

Hans J. Wegner's architectural expertise is exhibited in the CHO7 Shell Chair with the design's floating lightness through its wing-like seat and three arched legs. The chair's signature seat, backrest and legs are created from form-pressed veneer and upholstery, cradling the user in generous comfort. Its unique construction adds stability.

PRODUCTION PROCESS

Seat, back and rear leg are pressed and machined into the right shape and treated with the wished surface. Finally, the pieces are assembled by hand.

DESIGNER

Danish architect Hans J. Wegner (1914–2007) is considered a pioneering furniture designer of the twentieth century. Often referred to as the master of the chair, Wegner created almost 500 in his lifetime – many of them considered masterpieces. Wegner was part of the spectacular generation that created what is today referred to as 'the Golden Age' of modern Danish design.
