

CH25

HANS J. WEGNER

CARL HANSEN & SØN

DESCRIPTION

The woven paper cord in the CH25 Lounge Chair was a replacement for seagrass developed during World War II. Hans J. Wegner was enthusiastic about the look of the material and its non-stretching and optimal durability. It takes a skilled craftsman 10 hours and approximately 400 meters of paper cord to complete one seat and backrest by hand.

PRODUCTION PROCESS

The separate parts are milled, after which they are polished and finished by hand before they are assembled. It takes approximately 8 hours for a skilled craftsman to weave the seat and back by hand.

DESIGNER

Danish architect Hans J. Wegner (1914-2007) is considered a pioneering furniture designer of the twentieth century. Often referred to as the master of the chair, Wegner created almost 500 in his lifetime – many of them considered masterpieces. Wegner was part of the spectacular generation that created what is today referred to as ‘the Golden Age’ of modern Danish design.

MATERIALS

Note that oak has a clearly visible wood structure when painted.
