

Mamba Sofa Collection

Design Rodolfo Dordoni

Technical Information

Curved layouts welcome and envelope, as if suspended in mid-air. MAMBA is the new collection of upholstered sofas by Rodolfo Dordoni, characterised by deep comfort and original design. The modules have different shapes, linear or pentagonal, and can be fitted together to form classic arrangements or obtain unexpected lengths. The backrests lean slightly, opening up the angle they make with the seat. The structures stand on unobtrusive cylindrical feet. This upholstered line demonstrates experienced and excellent Italian manufacturing.

The structure of the MAMBA is made of aluminium slats. The backrests hook on by means of a bayonet-joint. In MAMBA composition, all sides of both linear and pentagonal modules, can be equipped with shorter backrests, while one side of the pentagon is made specifically for the longer backrest.
