

Teseo 220 Table

Design AMDL Circle

Technical Information

TESEO is the original dining collection designed for RODA by AMDL CIRCLE, the studio founded by Michele De Lucchi. The characteristic feature of TESEO is the cord stitching joining the teak slats that make up both the table, available in length sizes, and the chair. The collection emphasises the elaborate sartorial process of 'sewing wood': the teak table reveals a careful balance between the sewn slats of the top and the sinuous, turned legs; while the dining chair, with its faceted sides, features a continuous cordage between its slats.
