

SOPHIE

EMMANUEL GALLINA (2018)

DESCRIPTION

After the famous Grace, here is her sister Sophie. Despite its elegant silhouette you remember the shapes of Grace, Sophie, design Emmanuel Gallina, offers a seat with enveloping proportions and generous dimensions. The detail of the design of the armrest delicately underlines the concept of hospitality, in contrast with the fine lines of the structure. Also available in the stool version, it is characterized by particular attention to the details of the seam, to the wooden structure and to the design of the footrest.
