

Series composed by poufs with different dimensions.

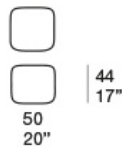

The **padding** is encased in a fixed covering in three-dimensional polyester fabric and consists of polypropylene microspheres and an insert in expanded polyurethane.

The pouf of larger dimension are provided with a varnished stainless steel **base** complete of plastic spacers.

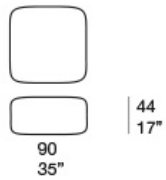

The **upholstery** cover is removable and is woven by hand in Chain and Chain Outdoor tubular knit padded with polyester fiber.

The upholstery is made of elements in different colours, obtained by recovering and sewing together production cutoffs of the tubular knit that otherwise would have been discarded.
